Wag the Dog pa rin kasi hindi pa tapos ang baha, kaya isyu pa rin ang 2022 vlog ni Mariel ng “Robin Padilla Law”. Ang tawag dyan sa English ay “obfuscation”, o paglihis ng attention sa mabibigat na problema ng bayan.
Mainam ganito ang gawin ninyo: Tanungin na lang ninyo si Atty. Demaree Raval - sya ang naka-kaalam sa pagbalangkas ng batas na ito.
Kaibigan yan ni Senator Revilla, Senator Maceda, Senator Miriam Defensor Santiago, Congressman Apostol,
at Brod sa Sigma Rho ni Atty. Raval na si Congressman Daza, ang mga pangunahing may akda ng bill na naging RA8294.
Si Atty. Raval lang ang makapagbigay ng tamang information sa inyo, kung ano ang naging papel ko sa pagpasa ng batas na yan.

At tigilan nyo na si Mariel; sya ay nagpapahayag lamang ng buong katotohanan tungkol sa RA8294, bilang isang batas na ang naging inspiration sa pagbalangkas nito ay ang pinagdaanan ng isang Robin Padilla.
Sa common sense dapat tayo, di ba?

Senator Raffy Tulfo called on Senate Minority Leader Alan Peter Cayetano to cooperate by confirming the minority members' intent to join the Committee on Public Services during the Tuesday's Senate plenary session.

Tulfo noted that Cayetano's refusal to approve these memberships could be seen as holding the LEDAC bills hostage.

IF YOU CAN EXPLAIN SOMETHING CLEARLY, you probably understand it. STUDY TIP from the late **Sen. Miriam Defensor Santiago**... See more

STUDY TIP
from
MIRIAM
Study like a future expert, not just like someone taking a test. So instead of asking: 'Will this be on my exam?' Try asking: 'What can I actually do with this knowledge?'
Miriam-style study routine:
25 minutes - Learn.
Read & understand the lesson carefully.
10 minutes - Recall.
Close the book & explain what you just learned from memory.
10 minutes - Practice.
Answer questions without looking at the answer key or notes.
10 minutes - Go deeper.
Find one interesting fact, example or connection beyond the lesson.
5 minutes - Teach it.
Explain the topic aloud as if you're teaching another person.
Good luck students!
Study hard.

COA: DEPED CONFIDENTIAL-FUND RECEIPTS SHOW SAME DATES, DIFFERENT ADDRESSES

Commission on Audit (COA) supervising auditor Xylene Mae Del Campo testified Tuesday that selected Department of Education (DepEd) confidential-fund acknowledgment receipts carried the same dates but different addresses across the country, despite only one special disbursing officer being designated to disburse the funds.

The records were presented during Vice President Sara Duterte's impeachment trial as private prosecutor Lorna Kapunan questioned Del Campo about receipts dated Feb. 21, Feb. 25, and March 15, 2023.

For Feb. 25 alone, selected receipts listed addresses in Masbate, Laoag City, Davao City, Agusan del Norte, Olongapo, Samar, Pangasinan, Compostela Valley, Nueva Ecija, Koronadal City, Batangas, Kalinga-Apayao, Southern Leyte, and Abra.

"Based po dun sa documents na prinesent sa akin, lahat po ito is dated February 25, 2023 po. With different addresses po na nakalagay," Del Campo testified.

"Based po dun sa documents na prinesent sa akin, lahat po ito is dated February 25, 2023 po. With different addresses po na nakalagay," Del Campo testified.

Del Campo identified Edward Fajarda as the DepEd special disbursing officer (SDO) responsible for disbursing the funds, noting that no other person was named in the designation attached to the liquidation documents.

Presiding Officer Chiz Escudero stopped questioning on whether Fajarda personally went to all the addresses, saying Del Campo was not competent to answer the question.

"That if indeed the SDO is the only officer authorized to disburse the funds, then clearly it is physically impossible to be in all of these locations in one day," Escudero said.

Del Campo said Item 6.1.1 of Joint Circular No. 2015-01 assigns responsibility for disbursement to the SDO and prohibits the transfer of cash advances from one accountable officer to another.

She also recounted that OVP Special Disbursing Officer Gina Acosta testified in a 2024 congressional hearing that she was instructed by Duterte to turn over confidential-fund cash advances to then-Vice Presidential Security Group chief Col. Raymond Dante Lachica, who

"This is a direct violation ng Joint Circular, specifically item 6.1.1," Del Campo said.

Del Campo said she later drafted a Notice of Disallowance covering ₱261.3 million after evaluating the records and OVP responses.

The amount included ₱62 million in reward payments that lacked documents showing successful information-gathering activities, ₱199 million for supplies and medical and food aid that auditors could not sufficiently verify through acknowledgment receipts, and ₱300,000 in information purchases made before the corresponding cash advance was released.

OBSESSION and BACKROOMS might be two of the clearest examples of how insane original horror has become in 2026, with two internet born filmmakers turning incredibly simple ideas into massive theatrical nightmares.

Curry Barker built OBSESSION around the One Wish Willow, turning a desperate attempt to make someone fall in love into something violent and deeply disturbing, while Kane Parsons expanded the viral Backrooms concept into an A24 feature where one strange doorway leads into a place that should not exist.

The connection goes even deeper because both Barker and Parsons first built their names through YouTube, bringing a distinctly younger horror language into theaters with analog technology, unsettling spaces and ideas that feel completely removed from another franchise sequel. OBSESSION has now earned more than $450 million worldwide, while BACKROOMS has approached $390 million.

One cursed wish. One endless maze of yellow rooms. Two completely different nightmares that became enormous hits. OBSESSION and BACKROOMS are proof that original horror is absolutely thriving right now.

On the Mount of Olives in Jerusalem stands a small, quiet chapel that marks one of the most sacred moments in salvation history—the Ascension of Our Lord.

According to Christian tradition, this is the very place where Jesus, forty days after His Resurrection, lifted His hands in blessing and was taken up into Heaven before the eyes of His disciples (Acts 1:9-11).

Inside the Chapel of the Ascension, a simple stone slab is carefully preserved. On that rock is an imprint long venerated by the faithful as the right footprint of Jesus—the last physical mark His feet left on the earth before He returned to the Father.

Early pilgrims already spoke of this holy place. In the late 4th century a church was built here. By the year 680, the pilgrim Arculf described seeing the footprints of Christ clearly marked at the site. Over the centuries the left footprint was taken to the Al-Aqsa Mosque, but the right one remains inside the chapel to this day.

For nearly 1,600 years, Christians from every nation have come to this stone, knelt, and prayed. Many light candles and leave their petitions, believing they are standing on the final piece of earth touched by the feet of the Risen Lord.

This humble rock is not just a historical curiosity. It is a silent reminder that Jesus truly walked among us, truly rose, and truly ascended—and that one day He will return in glory the same way He left.

Have you ever visited the Chapel of the Ascension, or would you like to one day? Share your thoughts below.

Lord Jesus, have mercy on us! 🙏

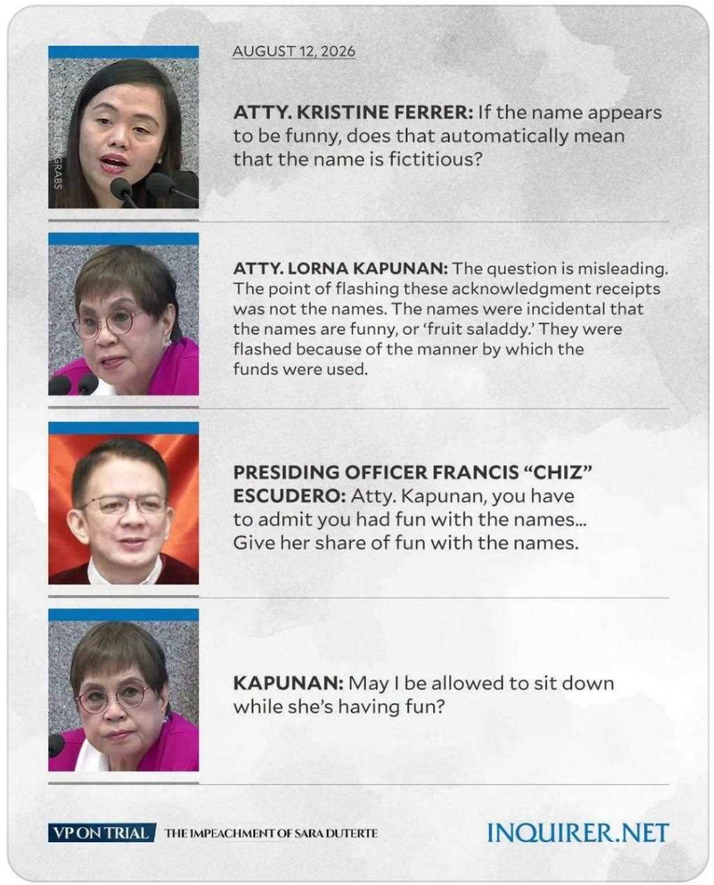
Kapunan Pushes Back at Ferrer Over 'Funny' Names in Acknowledgment Receipts



AUGUST 12, 2026
ATTY. KRISTINE FERRER: If the name appears to be funny, does that automatically mean that the name is fictitious?
ATTY. LORNA KAPUNAN: The question is misleading. The point of flashing these acknowledgment receipts was not the names. The names were incidental that the names are funny, or 'fruit saladdy.' They were flashed because of the manner by which the funds were used.
PRESIDING OFFICER FRANCIS "CHIZ" ESCUDERO: Atty. Kapunan, you have to admit you had fun with the names... Give her share of fun with the names.
KAPUNAN: May I be allowed to sit down while she's having fun?
